MACHINERY EXHIBITION

November 2 -3 -4

RAMANI KANGARAARACHCHI

The SME Machinery Exhibition 2007 organized by the Federation of Chambers of Commerce and Industry was held at the BMICH from 2 to 4 November. Over 15,000 visitors from various parts of the country participated and had the opportunity to exchange ideas on technology and machinery. The exhibition featured over 150 pavilions which included eco friendly machinery, subcontracting and outsourcing partners and inventors. Many SME Service providers too were present.

This Hopper Machine invented by Ruhuna University and developed at Industrial Development Board. It could produce 12 hoppers for a minute. This attracted many visitors at the event.
