Luxury yacht service launched

Travelling in a luxury yacht was along felt dream of travellers. Lanka Luxury Yachts (Pvt) Ltd has come forward to fill this void by launching Sri Lanka's first floating paradise.

With the dawn of peace entrepreneurs have been able to rewrite the annals of tourism in a new perspective. This has demanded

major improvements to the existing infrastructure and creation of new tourist attractions as well.

Taking this advantage into consideration Lanka Luxury Yachts (Pvt) have ventured to improve and create new avenues in off-shore sectors of tourism, by launching a luxury yacht service. The service will

provide an unparalleled cruising experience in areas of activities, among other things, such as whale and dolphin watching, recreational fishing, deep sea fishing, scuba diving, and water jet skiing. It is also looking at ferrying passengers to destinations such as Kalpitiya, Galle, Trincomalee, and Hambantota drop-

ping them and bringing another set of passengers.

Corporate activities, get-togethers and vacations too could be hosted in the yacht.

The launch was held at the Colombo harbour last Wednesday night and our photographer captured some moments of the launch.
