

'One Day on Earth' movie screening

Janashakthi Insurance PLC held the global screening of the movie 'One Day on Earth' at the Liberty Cinema, Colombo on April 22.

The movie paints a picture of humanity by recording a 24 hour period throughout the world, exploring a greater diversity of perspectives than ever before on screen. This is an

attempt to explore our planet's identity and challenges in an attempt to answer the question: who are we? Daily News photographer Ruwan de Silva clicked these moments from the event.
