

Harsha and Tharindu win Best Photography

DEMI HEWAMANNA

The art of photography is something that is born within you at any time of your life. Some are born with a gifted eye to see things and capture it with their lens if they got it with them, others learn about it when they see something remarkable happening in front of them and they seek further knowledge in it.

If we could capture every moment in our life and relive it every time we think about it, it would be truly great. Thinking about this, cameras came

into invention and they were used to capture that important day in one's life. Birth, birthday, graduation, wedding and more were all captured on lens to save some of the sweet memories of growing up.

Recently, a competition was held for amateur, professional and for ones who take it as a hobby to take pictures and submit it to see who's got great talent and an eye to see beyond one's reach.

The competition titled Canon Photo click and win was organized by Canon, Metropolitan and Modelz

Magazine and two young photographers took home the trophies.

Harsha Maduranga took home the prize for Most Popular Photography and Best Wedding Photography while Tharindu Madushanka won the Best Fashion Photography award. Both has their unique way of capturing that moment along with the perfect lighting and colours.

Canon will be opening a new photo hub in Kandy and will also open a training academy in photography next month down Wijerama Road. People who purchase a camera

from them can get a free training into knowing how to use the camera and other things.

They said with this competition, entries just kept pouring in giving the judges Chandrasena Perera, Meesha Gunawardena and Angelo Samarawickrema a hard time in choosing the best.

The Most Popular Photograph was chosen by the people who voted on Facebook and the website. The Modelz Magazine which is done by Rozanne Diasz Leanlage will be organizing the event and management of workshops.
