

# Power Sri Lanka concludes

The eleventh edition of *Power Sri Lanka 2013*, an International exhibition on power generation, transmission, energy and renewable energy concluded in last week at the Sri Lanka Exhibition and Convention Centre in Colombo.

The three day exhibition was organized by CEMS Global USA and co-partnered by Power Lanka Pvt Ltd and Orange Electric. The exhibition was an ideal platform for all power industry related stakeholders to create much needed business links as well as showcase their wide range of products under one roof.

Three exhibitions Renewable Energy Sri Lanka 2013 International Expo, Solar Sri Lanka 2013 Int'l Expo, and E-Power Sri Lanka 2013 International Expo was held concurrently.

This year exhibition had the participation of high profile exhibitors from over 10 countries and they had the opportunity of familiarizing themselves with the Power and Energy sector of Sri Lanka and see the investment climate where the Government is encouraging Foreign Investments in the Power and Energy sector.

The exhibitors showcased world-class technology which beneficial to upgrade the Power and Energy sector and also play an important role by assembling the entire business community of Sri Lanka from all the industry sectors.

## Some highlights of the event
