The World Environment Day (WED) was celebrated by the Environmental Unit (EU) of Wadduwa Central College recently, at the College premises, under the guidance of the unit teacher in-charge Tharanga Weerasekara. The unit comprises 25 students.

After hoisting the environment flag by the principal Ranasinghe Indrasena, a series of environment related activities were carried out during the day under the supervision of Tharanga Weerasekara. The tree-planting programme, cleaning up the environment and environment related speeches done by students were some of the highlights throughout the day.

The Environment Walk organised by Weerasekara was a major success. Students walked up to the Wadduwa town, carrying the Environment Banner and hundreds of book marks and environment-friendly bags. Weerasekara stated that there was a satisfactory sale of book marks and bags which was a fundraiser for the School EU. "I hope to spend the profit, on future activities of the School EU," she added.

The OIC of the Wadduwa police station, D L C Weerasinghe appreciated the whole programme, specially the walk which was organised and purchased an environment-friendly bag after meeting the students of the EU.
